Keyboard Shortcuts

When designing workflows, you can use the following shortcuts:

- `CTRL` + `X`: to cut the selected item(s)
- `CTRL` + `C`: to copy the selected item(s)
- `CTRL` + `V`: to paste the content from the clipboard (where the mouse cursor is located)
- `CTRL` + `A`: to select all workflow nodes
- `Delete`: to delete selected
- `F2`: to rename a node
- `F3`: to open the quick view of output data
- `F9`: to run the selected node
- `Shift` + `Enter`: to enter a node config wizard
- `Enter`: to enter a supernode
- `CTRL` + `Enter`: to enter a supernode in a new window
- `Backspace`: to exit a supernode
- `CTRL` + `Backspace`: to exit a supernode and move to a new window
